

50 YEARS OF MAKING IT EASY FOR YOU TO MOVE UP TO MORE AIRPLANE.

The more you fly, the more likely you will make the transition to bigger, more powerful, more complex airplanes. Beech greatly simplifies this process. We offer some 21 different models, just so you can find one that's easy to step up to.

THE BEECHCRAFT DUCHESS

Four-place twin

Maximum speed: 171 kts/197 mph

Recommended cruise speed: 162 kts/186 mph

Economy cruise range: 843 nm/970 sm

Service ceiling: 19,650 ft.

Standard useful load: 1,450 lbs.

50 YEARS OF TAILORING EACH AIRPLANE TO FIT THE OWNER, NOT THE MOLD.

Beech has never made airplanes for the masses. Rather, we take the extra measure of care to make every Beechcraft a statement of personal pride. For ourselves as well as owners. The results are airplanes hand-tailored and hand-fitted to suit individual needs, tastes and even personality.

THE PRESSURIZED BEECHCRAFT DUKE

Six-place turbocharged twin

Maximum speed: 246 kts/283 mph

Cruise speed (@ 74% MCP): 225 kts/259 mph

Cruise range (@ 74% MCP): 1,010 nm/1,163 sm

Service ceiling: 30,000 ft.

Standard useful load: 2,394 lbs.

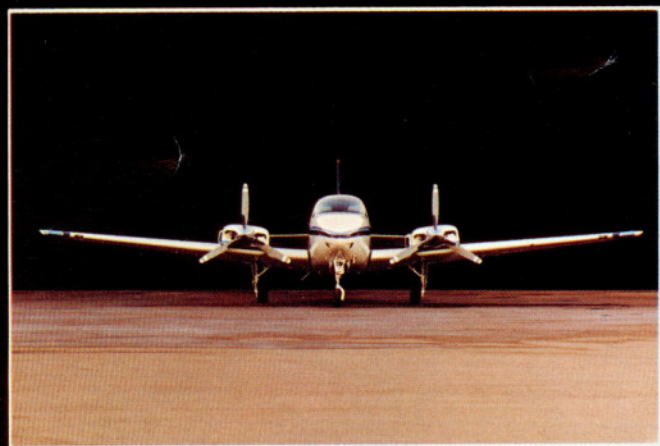

50 YEARS OF DESIGNING AIRPLANES TO FIT YOU AND THE WAY YOU WORK.

At the heart of every Beechcraft is years of knowing pilot's needs and greatest expectations. You can feel it as you take to the air, as that half-century of precision engineering and hand craftsmanship comes alive through the control wheel.

THE PRESSURIZED BEECHCRAFT BARON 58P

Turbocharged, six-place twin

Maximum speed:	261 kts/300 mph
Cruise speed (@ 77%):	241 kts/277 mph
Cruise range (@ 77%):	1,013 nm/1,166 sm
Service ceiling:	Above 25,000 ft.
Standard useful load:	2,230 lbs.

THE BEECHCRAFT BARON 58TC

Turbocharged, six-place twin

Maximum speed:	261 kts/300 mph
Cruise speed (@ 77%):	241 kts/277 mph
Cruise range (@ 77%):	1,013 nm/1,166 sm
Service ceiling:	Above 25,000 ft.
Standard useful load:	2,447 lbs.

THE BEECHCRAFT BARON 58

Six-place twin

Maximum speed:	208 kts/239 mph
Cruise speed (@ 77%):	200 kts/230 mph
Cruise range (@ 77%):	1,108 nm/1,275 sm
Service ceiling:	18,600 ft.
Standard useful load:	2,063 lbs.

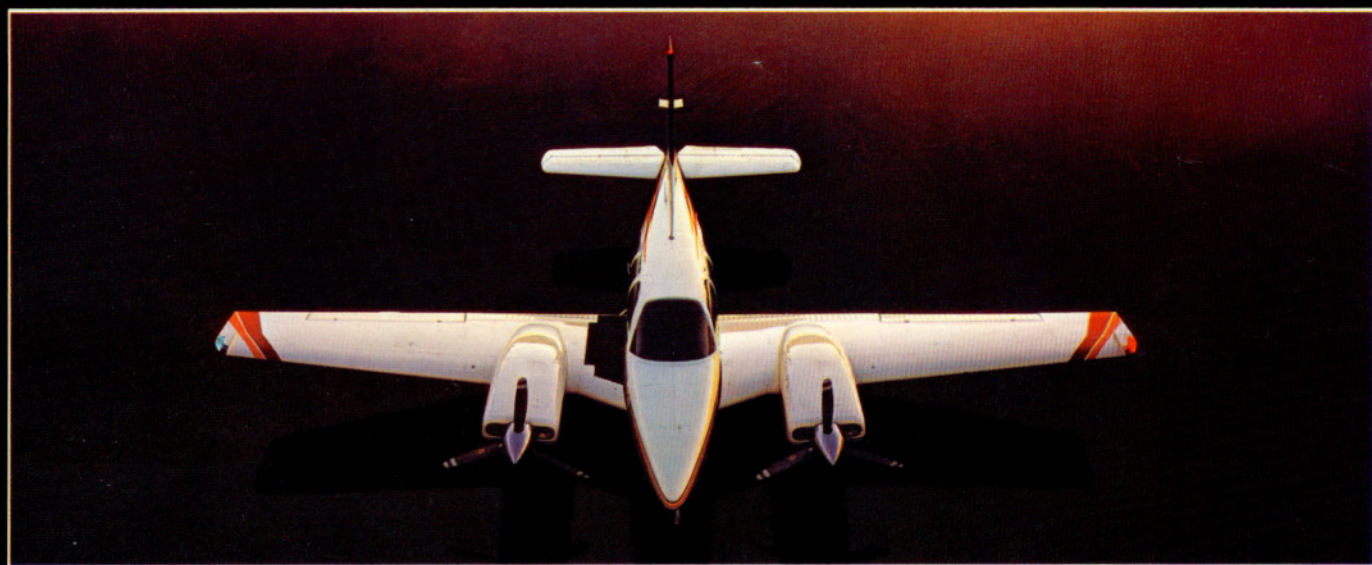

50 YEARS OF MAKING EVERY DIMENSION OF BEECHCRAFT OWNERSHIP A MATTER OF CHOICE, NOT COMPROMISE.

At Beech we believe in flight as a means of attaining a very special freedom, in the pursuit of business and pleasure. A freedom that should not be restricted by limitations of model offerings. It is for precisely this reason that we offer so great a variety of Beechcrafts.

THE BEECHCRAFT BARON E55

Four-six place twin	
Maximum speed:	208 kts/239 mph
Cruise speed (@77%):	200 kts/230 mph
Cruise range (@77%):	933 nm/1,074 sm
Service ceiling:	19,100 ft.
Standard useful load:	2,033 lbs.

50 YEARS OF MEASURING OUR SUCCESS, NOT ON HOW MANY WE BUILD, BUT ON HOW EXACTINGLY WE BUILD THEM.

Don't let the numbers fool you. Even though Beech has built over 5,000 Barons, the emphasis has always been on quality. Every airframe is subjected to some 5,600 separate inspections. A log is kept during assembly and maintained as a lasting record of our attention to detail.

THE BEECHCRAFT BARON B55

Four-six place twin	
Maximum speed:	201 kts/231 mph
Cruise speed (@77%):	188 kts/216 mph
Cruise range (@77%):	798 nm/918 sm
Service ceiling:	19,300 ft.
Standard useful load:	1,885 lbs.
